

World Bank pegs India growth at 8.3% in FY21

PRESS TRUST OF INDIA
Washington, June 8

THE WORLD BANK on Tuesday projected India's economy to grow at 8.3% in 2021 and 7.5% in 2022, even as its recovery is being hampered by an unprecedented second wave of the Covid-19, the largest outbreak in the world since the beginning of the deadly pandemic.

The Washington-based global lender, in its latest issue of Global Economic Prospects released here, noted that in India, an enormous second Covid-19 wave is undermining the sharper-than-expected rebound in activity seen during the second half of FY2020/21,

especially in services. "India's recovery is being hampered by the largest outbreak of any country since the beginning of the pandemic," the World Bank said. In 2020, India's economy is estimated to have contracted by 7.3% while in 2021, it registered a growth rate of 4%, the World Bank said, adding that in 2023, India is expected to grow at 6.5%.

In its report, the Bank said that the global economy is set to expand by 5.6% in 2021 — its strongest post-recession pace in 80 years. "For India, GDP in fiscal year 2021/22 starting from April 2021 is expected to expand 8.3%," it said.

Consumption of power rises 12.6% in first week of June

PRESS TRUST OF INDIA
New Delhi, June 8

POWER CONSUMPTION in the country grew at 12.6% in the first week of June to 25.36 billion units (BU), indicating a slow recovery in commercial and industrial electricity demand, as per the government data.

Power consumption was recorded at 22.53 BU in the first week of June last year, the power ministry data showed.

According to experts, the recovery in power consumption and demand was slow in the first week of June due to the low base of last year.

In the entire June last year, power consumption slumped by nearly 11% to 105.08 BU from 117.98 BU in the same month in 2019, mainly due to fewer economic activities amid lockdown restrictions.

IEX sees good demand from cross-border customers

VIKAS SRIVASTAVA
Mumbai, June 8

THE CROSS-BORDER power trade that started on Indian Energy Exchange (IEX) in April has since seen a volume of 1.39 million units with firms in Nepal, Rohit Bajaj, head, business development, IEX told FE.

He also sees a "huge potential" for other South Asian countries with greater demand such as Bangladesh and Sri Lanka as they could potentially save up to ₹1.50 per unit in power procurement by trading on IEX.

"Talks are on to bring onboard companies from Bangladesh and Bhutan on an immediate basis while there are plans to engage with countries such as Sri Lanka and Myanmar which have the requisite demand and where connectivity can be established," Bajaj said.

"Indian companies save around ₹1 per unit on IEX on an average. For any company from

regional markets such as Bangladesh, the savings would be more than ₹1.50 per unit since the average procurement cost for most of the PSUs there is close to 7 Taka (1 Taka = Rs 0.86) while the highest ever price in April this year on IEX was ₹4 per unit. There exists huge potential for trade between the countries," Bajaj further said.

There are immediate neighbouring countries where the dependence is still on gas and diesel-based generation which leads to higher procurement cost for the national electricity authorities. Much of this dependence on costly fuel can be reduced through exchange trading. The buyers with surplus power can also sell on the exchange.

The Indian Energy Exchange traded 6540 MU of electricity volume in May 2021 up 9% y-o-y amidst Covid-19 lockdown as well the cyclonic disturbances that affected the overall power demand in the country.

The contribution from the day-ahead market that includes cross border trade was 4,364 MU, the real-time market contribution was 1436 MU, and the term-ahead market which comprises intra-day, contingency, daily and weekly contracts, traded 383 MU.

'Farmers should point out deficiencies in agri laws before talks'

PRESS TRUST OF INDIA
New Delhi, June 8

AS SOME SECTIONS of farmers continue to protest against the three farm laws, Niti Aayog Member Ramesh Chandra has said that in order to resume talks with the government, there should be "some signal" from the farmers' leaders on their willingness to point out deficiencies in the legislations rather than just demanding repealing of the laws.

(BKU) leader Rakesh Tikait on April 29 had said farmer unions are ready to discuss the three contentious agri laws with the Centre whenever it wants to resume talks, but asserted the discussion would have to be about repealing the legislation.

"I think that statement by Rakesh Tikait is welcome, but at the same time, statements from some leaders came that our demands are same, (we want) repealing of three farm laws. So, as long as they stick to

repealing those three farm laws, then what kind of talk can be held," the Niti Aayog Member (Agriculture) told PTI.

the three farm laws clause by clause.

"So, there should be some signal from the farmer's side that they are willing to discuss all matters and they are willing to point out what are the deficiencies of these laws as the government has already asked them that (to point out) whatever is wrong with these laws. If there are two things wrong, tell us, if there are five things which you don't accept, please tell us," the Niti Aayog member said.

Govt hopeful of holding Monsoon Session on schedule in July: Joshi

PRESS TRUST OF INDIA
New Delhi, June 8

THE GOVERNMENT IS hopeful that the Monsoon Session of Parliament will begin on its normal schedule in July, Parliamentary Affairs Minister Pralhad Joshi said on Tuesday amid the second wave of Covid-19. Since the pandemic began, three sessions of Parliament were curtailed and the winter session last year had to be cancelled.

in July, had begun in September. "I am hopeful that Parliament session will be held as per its normal schedule starting in July," Joshi told PTI.

Sources said the modalities of holding this year's Monsoon Session are still being discussed.

Parliamentary Standing Committee meetings are also expected to resume from the third week of June, according to sources. —PTI

City gas volumes impacted in Covid second wave, less severe than first

PRESS TRUST OF INDIA
New Delhi, June 8

CITY GAS VOLUMES have been impacted by the second wave of Covid-19 induced lockdowns, but the drop is less severe than the first wave, Icrs said on Tuesday.

Acme Solar withdraws plea to cancel PPAs for Raj projects

FE BUREAU
New Delhi, June 8

ACME SOLAR HAS withdrawn its petition for the termination of power purchase agreements (PPAs) signed with the Solar Energy Corporation of India (Seci) for solar projects scheduled to sell at ₹2.44/unit — the lowest solar tariff discovered in 2018 auctions.

The development closely follows Norwegian renewables player Scatec announcing last week that it has signed an agreement with Acme Solar for a 50% stake in the latter's upcoming 900 megawatts (MW) power generation assets in Rajasthan. The assets in which Scatec is investing include a 300 MW unit of Acme which sought PPA termination with Seci.

"The contract is not frustrated and is the petitioners (Acme Solar subsidiaries) are not seeking discharge from the contract," the record of proceedings

at the Central Electricity Regulatory Commission showed. "The petitioners are withdrawing the petitions which were filed earlier for termination of PPA," the filing added.

Acme wanted to cancel the PPAs in May 2020, because of force majeure events such as the impact of the coronavirus outbreak, land acquisition related issues and delay in building associated transmission network.

Seci has already extended the commissioning dates of the projects by 481 days, which are now expected to be set up by March 2022. However, the Power Grid Corporation of India has granted an extension for only five months and wants to collect relevant transmission charges from the projects from March 2021 itself. Power from the solar units in question is scheduled to be supplied to Delhi, Haryana, Bihar and Puducherry.
